

STK/3

• Frontale e Porta 8 mm

• Front and Door 8 mm

### Digital Electronic Combination

- Lock controlled by a high performing electronic system provided by permanent memory.
- Opening/closing with recessed handle and locking by electromagnet.
- Internal power with 9 V alkaline battery (not included).
- Membrane keyboard with 4 leds.
- Emergency external power outlet with contacts directly on keyboard.
- Acoustic and visual signals to confirm codes, errors and internal battery deficiency.
- Nickel-plated steel bolts  $\varnothing$  18 mm.
- Lock mechanism protected by a manganese-steel plate.
- Special ledges of the door particularly resistant.
- Internal welding realised by a robot-controlled system.
- Front panel seam-welded to the casing by a robot-controlled system.
- Removable internal shelf (excluded STK/1 model).
- Anchor tongues on the 4 backs sides against jerks-attempts.
- Oven dried thermo-hardening powder painting.

**A richiesta**, tutti i modelli elettronici possono essere dotati di serratura per un'apertura meccanica di emergenza con chiave di alta sicurezza a doppia mappa.

**Codice prodotto di questa serie:** aggiungere la lettera "P" alla fine del codice del prodotto standard.

Esempio: STK/1 senza chiave di emergenza diviene STK/1P con chiave di emergenza, STK/2 diviene STK/2P, etc.

**On demand**, all the electronic models can be equipped with a emergency opening with double-bitted key lock.

**Product code of this series:** Add a "P" at the end of the code of the article: Ex. STK/1 for a safe without emergency key becomes STK/1P for a safe with emergency key, STK/2 becomes STK/2P, etc.

Serratura di emergenza con chiave a doppia mappa.

Emergency lock with double-bitted key.
